

MEMO

TO: MGEX Market Participants

FROM: Jesse Marie B. Green, Chief of Staff & Assistant Corporate Secretary

SUBJECT: MGEX Report of Deliveries

DATE: August 8, 2016

MGEX is pleased to announce an enhancement to the MGEX Report of Deliveries (the "Report"). Beginning with the September 2016 delivery period, the Report will include vomitoxin information for each receipt. MGEX Rules state that all warehouse receipts issued for delivery against Hard Red Spring Wheat ("HRSW") futures contracts shall be marked with a vomitoxin limit of either 2.0 parts per million or 3.0 parts per million. Receipts that are marked as 2.0 parts per million shall be delivered at contract price, while receipts marked as 3.0 parts per million shall be delivered at a 20 cents per bushel discount. For additional information please see MGEX Resolution 803.

The Report will note if a receipt is 2.0 or 3.0 parts per million; information that has previously been included in the Report will remain. Please contact me if you have questions on this additional information being supplied on the Report of Deliveries.
